

# Success By 6 Resource Van

**The United Way of Central Alabama's Success By 6 Initiative is pleased to announce the arrival of our new resource van.**

The purpose of the Success By 6 van is to provide mobile resource information to children and their families throughout the five county UWCA service areas on a variety of topics to promote healthy child development (0-6 years).

The van is stocked with developmentally appropriate manipulatives and community agency/organization brochures and applications. We welcome the opportunity to bring the van to any community event that focuses on young children and families.

Motion Industries donated the Success By 6 van and Publix Super Markets Charities and UWCA provided funds for the renovations. The van is equipped with a computer and internet access and a mobile phone. It also has a generator with its own fuel tank. There is space available to meet with a family member while child(ren) play in the van.

**If you would like the van to be at your next community event, contact:**
